

Dear partner

Dear partner,

here is a little about me: my name is Sara. I'm a 13 year old Norwegian girl. I have two brothers and one sister, we also have a cat called tiger and two hamster called Bambo and Pampas. I live with my parents in our house. I like cooking food, singing, friends, family, sports, music and movies. In my spare time I do rhythmic gymnastics, it 6 times a week 3 hours every time. It's a passion and a great sport, we travel around Norway and Europe for competitions and training camps. I also love being with friends, and of course I have to make time for homework and school related things.

I'm very interested in your culture, your language, your contry and of course you. Like how is school and homework, food, things you enjoy doing, intrest, sports, what do you do in your spare time, and so on. I think it would be a lot of fun talking to you, and learning and getting to know you better.

That is all for now, hope I will be hearing from you.

Until then, all the best from

Sara
